CHEMETAL[®]

Magnetic & Dry Erase Product Reference

Key Benefits:

- Feature a thin sheet of iron (ferrous, magnetic metal) in the HPL backer.
- Makes these more magnetic than “powdered” (ferrous powder sprinkled onto HPL backer) magnetic laminates.
- Easy to cut and fabricate like laminate.

Product Info:

Chemetal Magnetic Laminates (#150-157) are high pressure laminates (HPL) that contain a thin iron layer sandwiched in the HPL Backer (look at sample edge to see) creating magnetic effect when used with magnets. Ideal for vertical interior application. Surface is melamine. 4' x 8' sheets, 4' x 10' in #152.

Tech Info:

Complete tech info is available for download at chemetal.com under "Downloads." We recommend obtaining and testing a sample prior to installation.

Cleaning:

Once installed, sheets must be cleaned once mask is removed. We recommend either rubbing alcohol (found in most drug stores), hand sanitizer or dry erase board cleaner and paper towel. Sheets should also be regularly cleaned with this solution to prevent "ghosting."

#160 info:

Chemetal #160 is a steel dry erase magnetic material. It is value priced with excellent magnetic hold and a great "pure" white color. It requires metal fabrication equipment to cut. Chemetal can cut to size and apply laminate backer if requested (fee required).
